This tool provides 10 FREE searches each month.

Uncover hidden phone numbers, emails, associated Twitter, Facebook and GitHub accounts linked to a LinkedIn profile. Use this tool and obtained data in a manner that you can ethically justify your actions or defend yourself in a court of law, if challenged.

Let's take the first step.

1. Installation Requirements

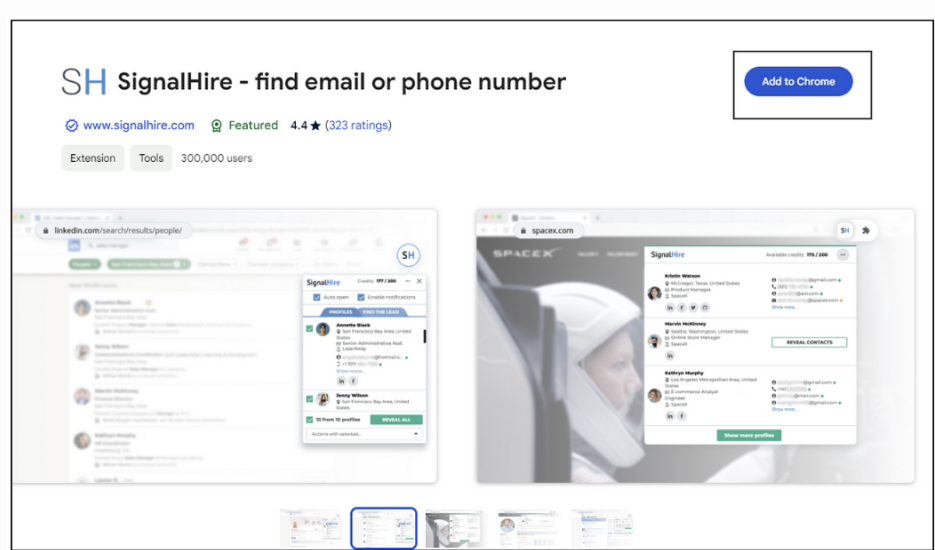

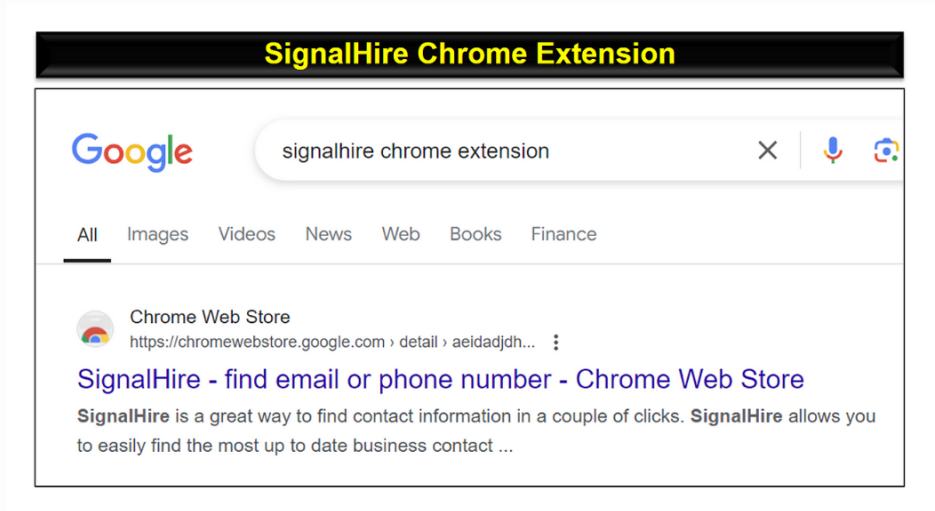

For installation, this tool requires an email, phone number and a LinkedIn profile.

Avoid using your personal email, phone number and social media accounts to access this tool.

Instead, use fakes credentials as outlined in my previous article, 8 FREE Tools for Phone Number Investigation.

2. SignalHire Chrome Extension

Google “SignalHire chrome extension” and add it to your chrome browser, as shown below

3. Tool Sign-up

Sign-up using your LinkedIn account, verify both your email

SignalHire

4. Extracting Hidden Phone Numbers, Emails from a LinkedIn Profile

This tool is now ready for use.

Go to your target LinkedIn profile, refresh the page, and click on SH icon, then click on **“Reveal Contacts”** as shown below.

5. Wrapping Up

That's it, enjoy.

For more information on OPSEC, Ethics and data privacy, refer to my articles [8 FREE Tools for Phone Number Investigation](#) and [Ethical and Legal Practices in OSINT Investigations](#).
